From the desk of Alan R. Bechtold

September 28, 2008

Dear Mr. Strinz,

I read your proposal for your public television documentary series and was impressed with the idea behind *Museums Of Minnesota*. And I am greatly intrigued by your plans for developing new ways of distributing digital information. They are very much in line with my company's interests as a developer of new media and content.

I am authorizing my company to pledge \$2,500.00 toward your goal. Underwriting your efforts with this tax-deductible sum is a pleasure, especially considering your intention to embrace the challenges of digital television. Please be sure to keep us informed as your work progresses, both in regard to the television series and your efforts to create new media systems.

On behalf of BBS Press Service, I wish you the best of luck, and kind regards.

Sincerely yours,

Alan R. Bechtold, president/CEO
